

New Evidence In Sirhan Probe

LOS ANGELES (AP) — A county grand jury has extended its investigation into reports of tampering with exhibits from the trial of Sirhan Sirhan in the slaying of Sen. Robert F. Kennedy.

Deputy District Attorney Richard Hecht said important additional evidence had been found, but declined to elaborate.

Closed-door hearings, scheduled to end yesterday, will be continued Monday and more witnesses will be subpoenaed, he said. The investigation began Aug. 16.
